Subject: RE: SEMS Question From our Call yesterday

I just spoke with Diane Ortiz and Robert Contreras regarding the possibility of using one site ID for the Gold King Mine Site. They both raised concerns that in SEMS (we) Region 6 are not allowed to enter documents for a site in another region, nor can we see documents from another region. In addition we have the added issue of changing the accounts already established in People Plus, used for travel, and contracts.

These are just my thoughts.

Subject: SEMS Question From our Call yesterday

Hi All,

I'm not sure who raised the SEMS question on our call yesterday, so I wanted see if you all knew more about that issue. The R8 SEMS person is out. I believe the issue around using one SSID is that SEMS does not allow for other regions to see/use each other's SSIDs and that this limitation would prevent us from properly tracking/entering information that OSWER and SEMS requires...

Is that accurate and if so do you all have any insight or someone who can look into this?

Thanks!

BB
